SUMMARY

Final-year B.Tech Computer Engineering student with a strong foundation in Core Java, Advanced Java, JDBC, Hibernate, Spring Data JPA, Spring MVC, Spring Boot and Spring Cloud. Skilled in developing scalable backend applications using REST APIs, MySQL, PostgreSQL and layered architecture, while currently enhancing enterprise Java development skills through the Symbiosis Full Stack Java Program. Complemented by UI/UX design expertise in Figma, with a focus on building intuitive and user-centric applications.

EDUCATION

R.C. Patel Institute of Technology

B.Tech in Computer Engineering | CGPA: 7.5/10

Shirpur, Maharashtra

2023 – Present

N.E.S. Junior College

Higher Secondary Certificate (Science) | Score: 77%

Parola, Maharashtra

2023

Bhagirath English School

Secondary School Certificate | Score: 89%

Jalgaon, Maharashtra

2021

TECHNICAL SKILLS

- **Programming Languages:** Java (Java 8, 17, 21)
- **Backend Frameworks:** Spring MVC, Spring Boot, Hibernate, Spring Data JPA, JDBC
- **Databases:** MySQL, PostgreSQL
- **Web Technologies:** HTML5, CSS3, JavaScript, TypeScript, Angular
- **Developer Tools:** Postman, IntelliJ IDEA, Eclipse, VS Code, Git, Swagger
- **UI/UX Tools:** Figma (Wireframing and Prototyping)

EXPERIENCE

Symbiosis Institute – Full Stack Java Program

Java Full Stack Developer Trainee

Sponsored by Capgemini

August 2026

- Completed training in Core Java, JDBC, Hibernate, JPA, Spring Data JPA, Spring MVC, Spring Boot, Spring Cloud, REST APIs, and Microservices.
- Built backend applications using Spring Boot, MySQL, PostgreSQL, and layered architecture.
- Implemented CRUD operations, validation, and exception handling.

R3 System India Pvt. Ltd.

Java Development Trainee

Maharashtra, India

July 2025

- Developed Java applications using Core Java, Collections Framework, and JDBC while implementing database-driven solutions with MySQL.
- Integrated MySQL with Java applications using JDBC and explored ORM concepts through Hibernate and JPA.
- Implemented CRUD operations, exception handling, and Spring MVC modules while following MVC architecture and clean coding practices.

PROJECTS

EstateFlow – Real Estate CRM Platform (In Progress) | Spring Boot, PostgreSQL, React

GitHub

- Developing a scalable real estate platform with **15+ REST APIs** using Spring Boot, Hibernate, JPA, and PostgreSQL.
- Designing a layered architecture with **10+ database entities**, CRUD operations, validation, exception handling, and JWT authentication.

AgroConnect – Farm Equipment Rental System | Spring MVC, MySQL

Live

- Developed a farm equipment rental platform with **5+ modules** and **10+ CRUD operations** using Spring MVC, Hibernate, JSP, and MySQL.
- Implemented equipment listing, booking, and vendor management with a role-based workflow.

Hotel Waste Redistribution System | Spring MVC, MySQL

GitHub

- Built a Spring MVC application with **6+ modules** and **12+ CRUD operations** for surplus food redistribution.
- Developed backend logic using Hibernate and MySQL to manage donor, recipient, and food request records.

ACHIEVEMENTS

- Secured **3rd Place** in Converges 2026 Inter-College Technical Competition.
- Participated in Smart India Hackathon (SIH) College-Level Competition.

LANGUAGES & SOFT SKILLS

- **Languages:** English (Professional), German (Basic)
- **Soft Skills:** Communication, Team Collaboration, Time Management, Problem Solving
